Additional Information

Besides being a designer, I am a musician/screaming vocalist. I was the **vocalist of Ionic Bond**, a pioneering metal band from Chittagong. We were **the first in Bangladesh to perform Epic Melodic Death Metal and Folk Metal.**

Our album **Amavashya Lore** explored politics,

myths, lore, and human emotion, and became a landmark in the underground scene. That era shaped my artistic spirit, giving me a sense of intensity, discipline, and emotional storytelling that continues to influence my design and writing today.

Though my active musical chapter has passed, its legacy remains embedded in everything I create.
